Negeri Sembilan hantar air ke Selangor

SEREMBAN: Syarikat Air Negeri Sembilan (SAINS) membantu penduduk Selangor yang terjejas dengan bekalan air bersih.

Ketua Bahagian Perhubungan Awam, Norzita Ismail, berkata, SAINS menghantar satu lori tangki dengan kapasiti 2,000 gelen bagi membantu Air Selangor Sdn Bhd (Air Selangor), yang berhadapan masalah pencemaran sumber air mentah.

Katanya, bantuan itu diberikan selaras dengan memorandum persefahaman (MoU) antara operator dan permintaan Suruhanjaya Pengurusan Air Negara (SPAN).

"Semoga dengan bantuan kecil ini dapat meringankan kesulitan yang penduduk di kawasan terjejas," katanya di sini, hari ini.

Semalam Air Selangor melaporkan, sebanyak 1,292 kawasan di Lembah Klang mengalami gangguan bekalan air, susulan penutupan Loji Rawatan Air Sungai Selangor Fasa 1, 2, 3 dan Rantau Panjang.

Penutupan loji terbabit disebabkan berlaku pencemaran air mentah disyaki berpunca daripada premis perindustrian di Sungai Gong yang melepaskan sisa ke sungai.

Large water production in Klang Valley Sending water to Senzhou

(Seremban 4th news) Klang Valley made water, Senzhou sent water for emergency!

Negeri Sembilan Water Company (SAINS) announced that it will provide clean water to the people of Selangor who are suffering from water control.

NORZITA ISMAIL

The director of the company's public relations team, Nokida, pointed out that the Sen State Water Company extended a helping hand to Air Selangor by sending 2,000 gallons of raw water to the water supply system through a tank truck. Selangor.

He said that the assistance is in line with the memorandum of understanding signed between the company and the National Water Services Commission (SPAN).

"Hopefully this little favor can help the affected residents alleviate the inconvenience caused by water production."

According to the Selangor Water Management Corporation, there are 1292 districts in the Klang River Basin, based on the Selangor River Phase I, Phase II, and Phase III and the Rantau Panjang Water Treatment Station was forced to close and face water supply interruption. .

The reason for the closure of the water filtration station was mainly due to the pollution of the Sungai Gong river under the Selangor River.
